Re: Caution on Route 354/Old Colchester Road

Dear Fellow Townspeople:

Please be aware of the road work on Route 354/Old Colchester Road due to ongoing icy conditions.

Our office has been in contact with the State Department of Transportation about this hazardous condition.

The water is percolating up from the road bed which is a result of the gas line that was installed by Eversource.

Eversource received permission to install the gas line on the State roads after we denied their request to install on our Town roads.

Eversource will be installing an underdrain to correct this problem.

Please use caution in this area as they complete this needed safety repair.

Respectfully,

A handwritten signature in black ink, appearing to read "K T Lyden".
