

April 2nd, 2020

Dear Fellow Townspeople;

With the Covid-19 pandemic, our Town has faced unprecedented challenges. These challenges will continue into the foreseeable future.

With our dedicated Emergency Responders, Emergency Management Team, Public Works and Town Hall Staff, we have and will continue to surmount these challenges in the weeks ahead.

The Board of Selectmen are in lockstep in meeting the needs of our residents.

Our collective goal is to minimize this virus in our community to protect the health and safety of you and your family. We must do our part, and we need every resident to do their part, too. Minimize your shopping to essential supplies, social distancing is absolutely required and hand washing is a life saver.

Please continue to reach out to friends and neighbors by phone or email. Many residents may feel isolated and fearful in these times. A comforting phone call or email can help to mitigate the feeling of social isolation.

In closing, I know this will be difficult for our Townspeople over the next several weeks.

Please remember, WE WILL GET THROUGH THIS!

Our Town is 200 years old. We have dealt with many, many challenges in those 200 years. We will prevail with this current challenge.

Stay Healthy.

Most Respectfully,

Kevin Lyden,
First Selectman
