

HOBBY QUEST AVIATION

HOBBY QUEST MAGIC

AUGUST 10-14 (MON-FRI)

AIRPLANE CAMP 9AM-12PM

MAGIC CAMP 12:30-3:30PM

Soar through the summer with your own hand-made aircrafts! You'll build helicopters, gliders and even motorized planes. By the end of the week you'll know all about how planes fly and what each part of the airplane is for. You'll even take your planes outside and see them fly! Children learn fundamental STEM concepts of aviation and valuable skills like following step-by-step instructions, measuring and sanding. Program fee includes all materials, and children take home every plane they build.

Abracadabra! Calling all budding magicians—learn to perform astounding tricks this summer! You'll make objects disappear, reappear and float in midair. Mystify your audience with your mastery of mind-reading! At the end of the week you'll even perform in a real magic show for family and friends! Camp is designed to enhance communication and performance skills in a supportive, creative atmosphere. Program fee includes all materials, and children take home every trick they learn.

**for children entering grades K-6
at Center School (Town Green) 250 Hartford Rd**

\$175 half day | \$325 full day (res)
\$180 half day | \$330 full day (non-res)
